ALL-IN-ONE SKIN THERAPIST PROGRAM

WWW.NIOB.CO.NZ

All the Skin Treatments You Need to know – In One Course

Why take multiple courses when you can master Safety & Hygiene, Facials, Chemical Peels, Extractions, Skin Needling, Diamond Dermabrasion, Hydrodermabrasion, Oxygen Infusion, and Ultrasonic Skin Scrubbing all at once?

This package gives you the skills to offer a **full range of in-demand treatments**, boosting your **confidence, client satisfaction**, and **earning potential**. Learning these services together helps you deliver safer, more effective, and tailored skincare solutions.

Stand out as a versatile, skilled skin therapist with the comprehensive knowledge to meet every client's needs — all in one streamlined program.

How Much Could You Earn?

Even 5 clients per week can cover the course cost fast.

Treatment	Avg Price/Service	5 Clients/week	10 Clients/week
Facials	\$120	\$600	\$1,200
Chemical Peels	\$150	\$750	\$1,500
Skin Needling	\$250	\$1,250	\$2,500
Microdermabrasion	\$180	\$900	\$1,800

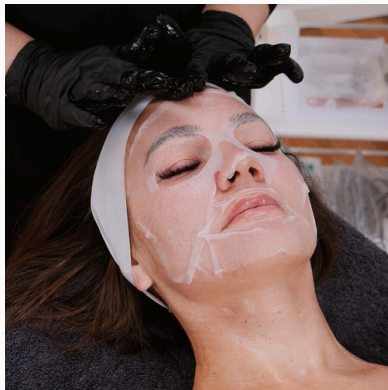

Facials (Basic to Advanced)

Learn how to perform tailored facial treatments for different skin types and concerns using professional-grade products. Includes cleansing, exfoliation, masking, massage, and product layering.

Infection Control & Workplace Hygiene

Gain industry-standard hygiene and safety training to protect clients and yourself. Learn how to sanitise tools, manage cross-contamination risks, and follow government guidelines.

Chemical Peels

Learn to safely apply and customise chemical peels to treat acne, pigmentation, uneven tone, and signs of ageing. Includes understanding skin prep, aftercare, and contraindications.

Extractions

Safely perform extractions to remove blackheads and clogged pores using hygienic techniques and professional tools - essential for effective acne and congestion treatments.

Advanced Treatments

Diamond Dermabrasion

Learn to perform diamond-tip microdermabrasion to gently exfoliate and resurface the skin. Ideal for treating dullness, fine lines, congestion, and uneven texture - a go-to for instant skin refreshment.

Hydrodermabrasion

Train in this modern, gentle treatment that uses water pressure and suction to cleanse, exfoliate, and hydrate. A popular choice for all skin types, especially clients wanting a dewy, hydrated glow.

Oxygen Infusion Therapy

Deliver targeted serums and pure oxygen deep into the skin using a fine misting tool. Perfect for calming, brightening, and plumping - a client favourite for events or post-treatment recovery.

Ultrasonic Skin Scrubber

Use ultrasonic waves to lift debris, oil, and dead skin from the surface. A gentle yet powerful option for deep cleansing, blackhead removal, and prepping the skin for better product absorption.

Skin Needling

Train in skin needling using a professional dermapen to trigger collagen production, reduce scarring, fine lines, and stretch marks. One of the most requested advanced skin services in clinics today.

Choose your package
