## Career Pathways

**Work From Home:** More and more people are now looking for the flexibility and freedom of working from home. Setting up and running your own home salon can be the perfect way to earn a great income while working your own hours.

**Work in a Salon:** The hair industry is always busy and like a lot of industries at the moment, Hair Salons just can't get enough good staff who can deliver great services. With the right skills, you can fill the void and earn a great living doing what you love.

**Start a Salon:** If you're up for an adventure, then starting your own stand alone Hair Salon may be for you. There are more upfront costs and commitments, but the rewards can be enormous. Your first step is gaining the right skills!

### Skills You Will Attain:

#### **Nano Bead Hair Extensions:**

Nano Bead Extensions were one of the first techniques. They are easy and quick to learn and install. They suit clients who like to change their hair style, especially if they like to wear it up occasionally.

#### **U-Tip Keratin Hair Extensions:**

U-Tip Keratin Extensions are probably the most healthy for the natural hair as they are fused to the hair with keratin bonds and will last 4 to 6 months with proper home maintenance. They suit clients who like to wear their hair up or down.

#### **Tape Hair Extensions:**

Tape Extensions are very easy and quick to install, excellent for clients with very fine hair and clients who like to wear their hair down all the time.

#### **Weft Hair Extensions:**

Weft Extensions are easy to install but very heavy and mostly suited to only very thick hair that is mostly worn down.

#### **Optional System:**

**Clip In Extensions:** An excellent option for those who don't want the time or financial commitment of semi permanent hair extensions. Great to use for special occasions.

# WHO IS THIS FOR?

## You May Be Asking These Questions...

### Can I Start A Business?

This course is most suited to someone looking to get into hair extensions by starting their own business, either at home or otherwise, and serving their own clients.

At the end of the course, you will have professional hair extensions skills that you can earn a living from by providing services in nano beads, U-tip keratin, tape, weft and clip ins.

Also, if you are purchasing our product kits, you will have all of the products and equipment you need to perform the services on your own - all of our products are professional grade salon products and brands.

We have been delivering skills courses in beauty and hair for 15 years now, and by far the most popular option for our students is to start their own business.

Many work from home around their other commitments and some start stand alone salons. We even have students who work in the industry doing mobile services. It's entirely up to you and what suits your lifestyle.

In our experience with thousands of students, this option gives you the most freedom and flexibility, while maximizing your income.

### Can I Get A Job?

As there is no licensing or formal education requirements in New Zealand\*, you can get a job working in a salon with our certificate.

But, like any job, it's going to depend on your skill level and whether a particular salon / business owner decides you are a fit for their business. We obviously cannot guarantee a job after completing our courses.

Salons differ though and there are many that only hire people with accredited qualifications or apprenticeships.

And some will only let you do an apprenticeship with them as apprentices are on much lower wages.

So if you are looking to work at a particular place, then ask them first if our certificate will be enough or discuss it further with our Student Enrolment Advisers.

# QUALIFICATIONS

## The Certificate You Receive

### Certificate of Completion

On successful completion of our Hair Extensions Certificate Course, you will receive a certificate of completion.

This is all you need to help you demonstrate your skills, work in the industry, get insurance or start a business.

You do not need an accredited training program or apprenticeship to provide nail services in New Zealand.

### Licensing & Regulatory Information

Our certificate is legally valid in Australia and New Zealand (and many other countries) to allow you to set up your own business or start working in a salon.

Hairdressers are not required any professional license to practise in the country: However, there may be relevant regulations hairdressers must comply that affect their profession.

More information is here: <https://sprintlaw.co.nz/articles/hairdressing-laws-and-regulations-gld/#:~:text=on%20our%20website.-,Do%20I%20Need%20A%20Licence%20For%20My%20Hairdressing%20Business?,from%20home%20and%20related%20topics>.

However, if you're outside of New Zealand or Australia, we'd recommend checking the regulations within your local area to see if different qualifications or licenses are required.

This means that many other training avenues have opened up for those interested in entering the beauty industry at a fraction of the price and with far less time restraints than traditional training.

So just to clarify, if you are in a country like New Zealand, where there is no licensing requirement our Certificate is all you need to work in, or own and run a salon.
